“My teacher thought I was smarter than I was, So I was” –a 6 year old

**Too many PD initiatives are done TO teachers, not FOR or WITH them.**

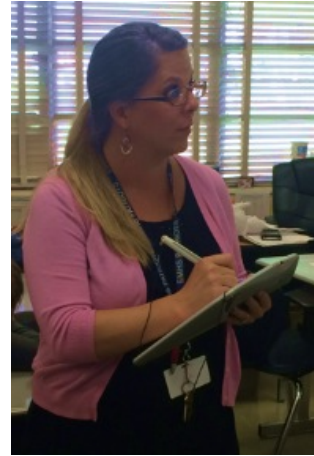

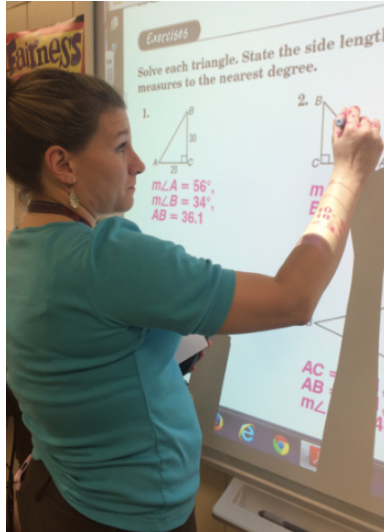

# Guess What? It's not fun for us either

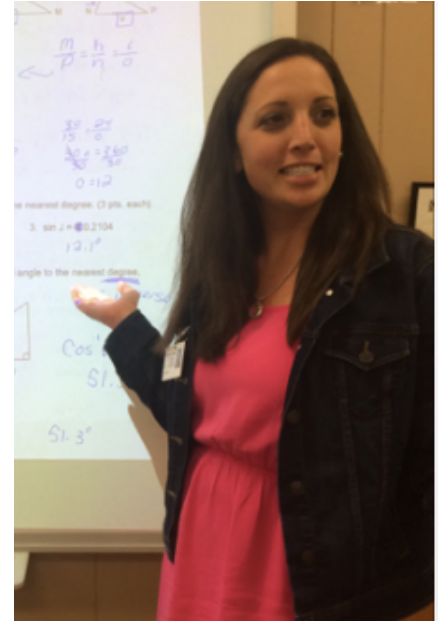

# ITPD<sup>3</sup>

3 steps

3 leaders

Deployed in  
3 groups

3<sup>rd</sup> time's the charm?

# Step One: 3 levels of tech adopters

## Emerging

## Advanced

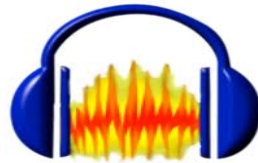

Not quite there....

How do I  
turn this  
thing on????

# Give the faculty a choice of topics...

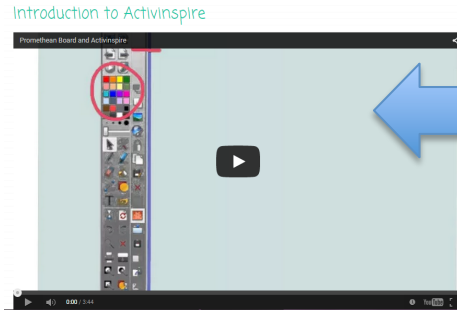

Google Drive

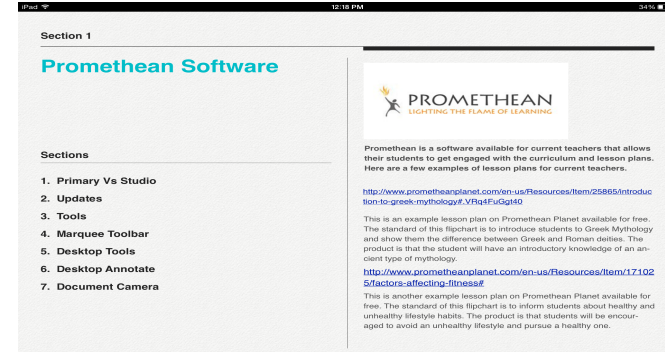

Blogger™

# PD delivered in 3 Stages

1. PrePD

2. Face-to-face

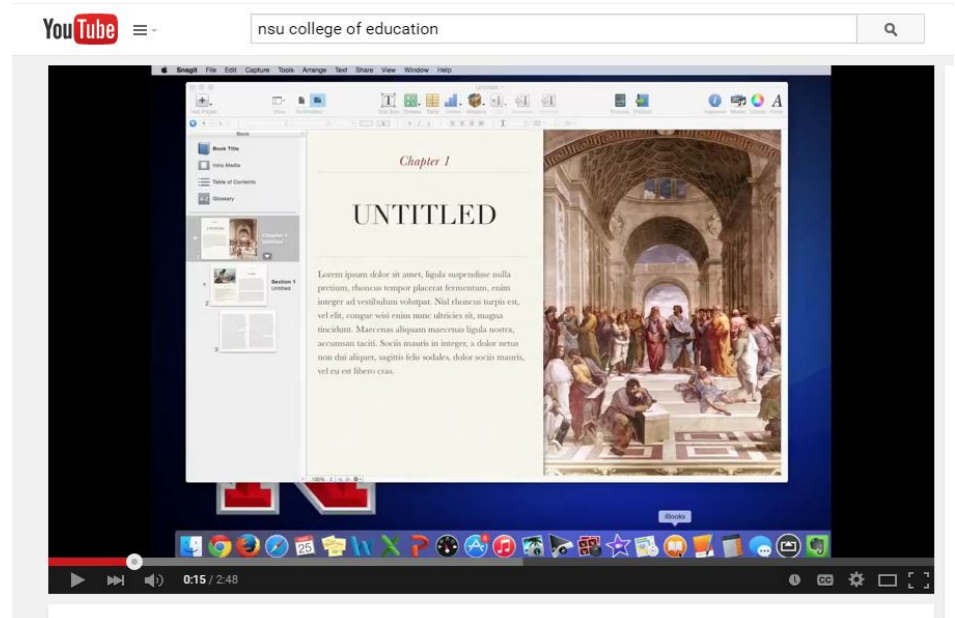

3. PostPD

# Pre PD - Screencasting

Explain Everything

TechSmith  
**SNAGIT**

# Face to Face session

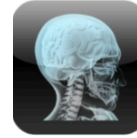

Broken into 3 small groups now, each leader *briefly* walks the faculty through the tool.

Since the sessions are small groups, leaders ask teachers what *specifically* they are teaching about soon, and mentor the teacher into incorporating the tool into *that specific lesson*.

# ITPD<sup>3</sup>

## ANATOMY 4D

<http://daqri.com/content/uploads/2014/07/anatomy4D-heart.jpg>

\*NOTE: be careful when using this app, some items may not be appropriate for some students (e.g. the reproductive system).

Price: Free

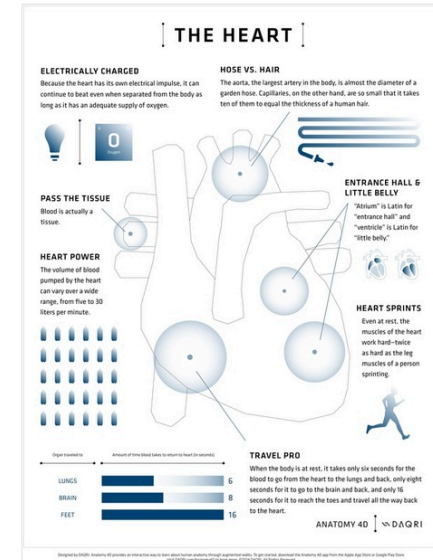

Suggested Grade Level: Secondary, (9-12)

Subject: Science

Topic: Anatomy of the human body & heart

Other comments: does not provide much information, but includes very detailed graphics, "almost hands on - 4D is so cool!"

During the next month, teachers are required to incorporate the tech topic into a daily lesson. They will then send this lesson and/or resource to their tech leader.

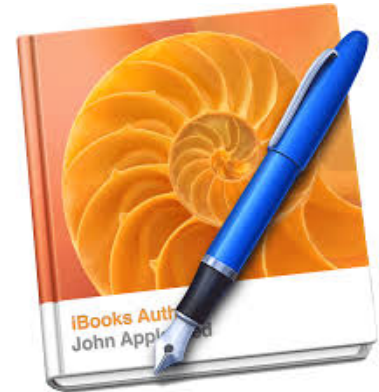

# Follow Up

Perhaps the most innovative part of the ITPD3 model is the use of follow up. Each of the leaders creates either a (1) website or (2) interactive eBook using iBooks Author from the lessons taught by their group of teachers.

(1)

(2)

Specific for a grade level and/or subject, these resources become free downloadable resources for other teachers.

But wait a second, how do I get the teachers to actually watch these?

**Extra planning period**

**Jeans day** **additional copies**

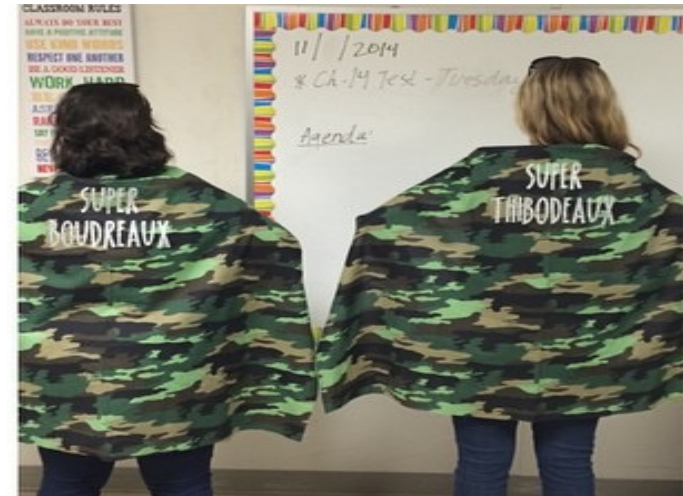

**Free lunch period** **Parking spot**

**Bathroom break** **Aid for a day**

**Pre made lessons** **Duty pass**

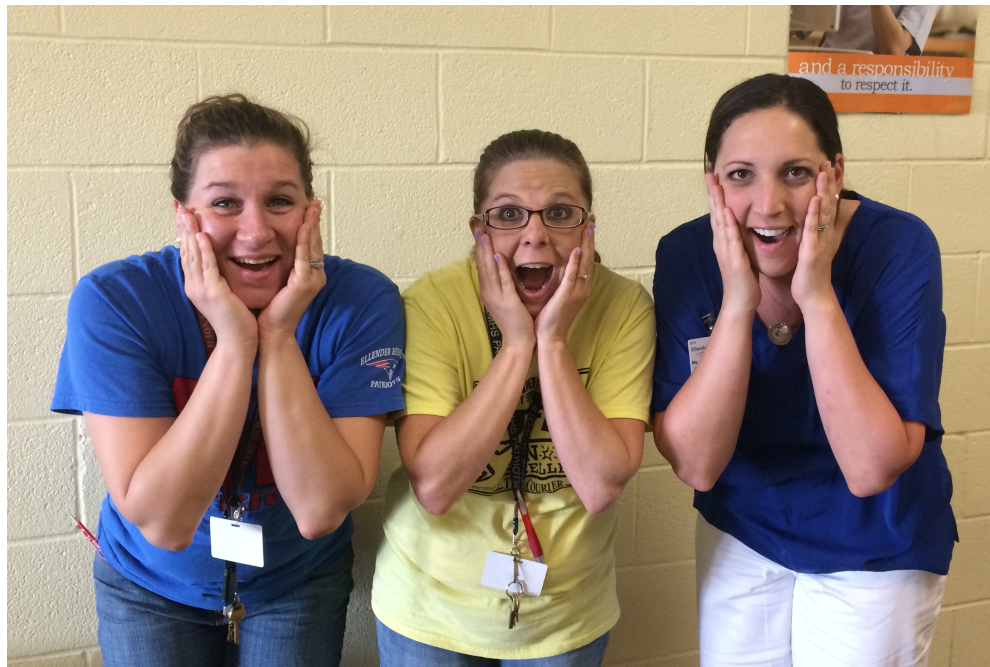

**Extra paper** **Copy assistant**

**Dress down day** **hour leave**

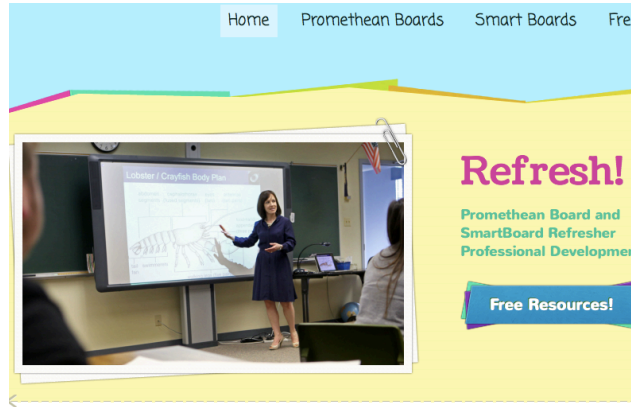

# INCENTIVES

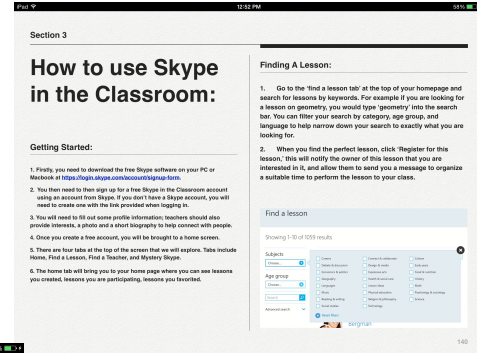

**Wait, so I get to go to a session that I'm interested in, at my level, and get to pick a prize at the end?!?!**

# Cool, what would this look like?

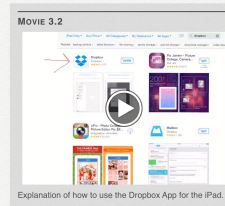

Website created using Weebly

Need a refresher on Smart and Promethean boards?

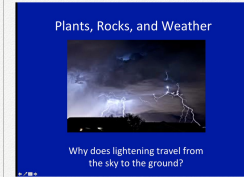

Dropbox App for iPad

## EXAMPLE LESSON

Standard: Ask questions about objects and events in the environment (e.g., plants, rocks, storms) (5E-A1)

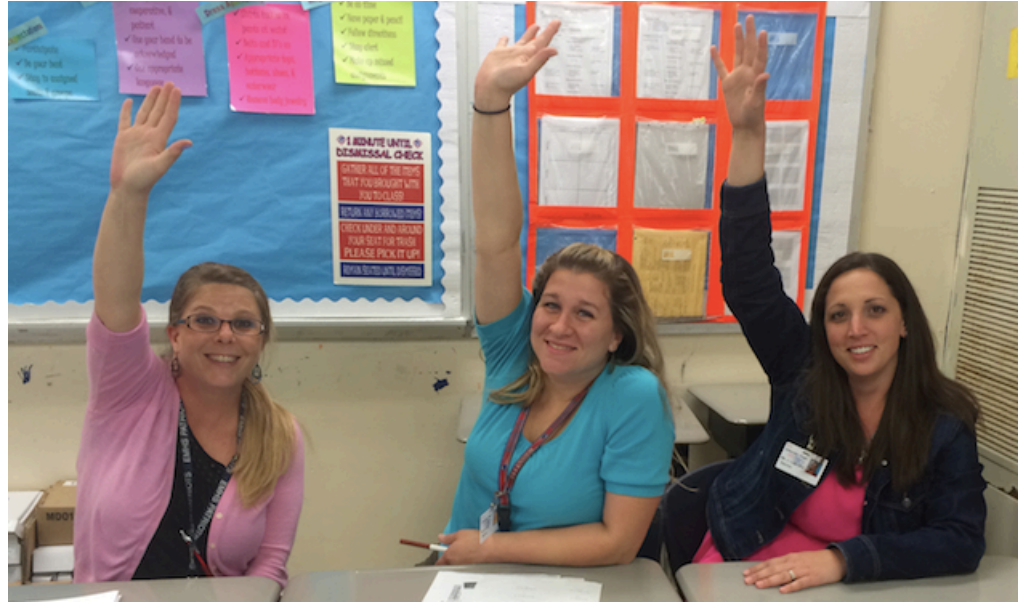

Example lesson: Take pictures of plants, rocks, and different types of weather and save them to dropbox in order to make a slide show on Microsoft PowerPoint.

Interactive eBook built using iBook Author

# Ok, so what do I need?

3 hard working  
leaders who  
have the time,  
inclination and  
tech skills

**AND**

A principal or leader who is willing to think “out of the box” for technology incentives.

# Ok, but none of us know how to make the screencasts, eBooks or Websites
